

INTEGRTR.assist

INTEGRTR Platform

We live in a networked world – a world made possible by information highways. With a multitude of different vendors to match the different HR process requirements best, a hybrid scenario with an ever growing number of different systems is the result. Saying this, it is an operational imperative to streamline your HR operations by providing full transparency and accessibility of information, on the point.

A Hybrid Working Environment

Enterprises digitizing their HR with SAP SuccessFactors or other HR cloud systems, are no strange to the various integrations that run in and out fulfilling key business processes like Hire to Pay. However not all applications can be easily integrated or it is difficult to position the needed information in the context of the current process or requirement.

INTEGRTR.assist takes a business serving approach, by providing additional information in context of your current SuccessFactors working screen, to provide full transparency or options, to continue and complete your workflow in a 3rd party system, guiding your right to the next logical step in the process.

Requirements

If there is no existing INTEGRTR.assist content available for the 3rd party vendor, this can be easily created and extended. The only pre-requirement is, that the 3rd party software provides an API that can be accessed and consumed. INTEGRTR.assist ensures, that all roles & permission settings are leveraged.

About INTEGRTR

INTEGRTR is an enterprise technology startup that helps enterprises in their digital transformation journey to the cloud. We are spread across 2 continents with INTEGRTR GmbH based in Hockenheim, Germany and Cloud INTEGRTR Software Services Pvt Ltd in India having offices in Gurugram.

Embracing an Agile methodology, we listen to our clients and deliver indispensable solutions in the HXM ERP integration space, serving a soaring clientele spanning different continents and geographies (Europe, Asia, Australia, USA).

Powered by our in-house technology platform and a team of expert consultants in the domain of SAP ERP, SuccessFactors and middleware technologies, we advise companies on their move to cloud ERPs. We offer high quality cloud integration consulting on SAP Business Technology Platform (BTP), Dell Boomi, MuleSoft, Cloud Elements (and more) with special focus on SAP SuccessFactors and other ERP Cloud Platforms and vendors.
